Subject:	Ergo Advisory Board Dinner—22 September 2013

Dear Minister Barak:

I hope this finds you well. We are thrilled and honored to have you on Ergo's Advisory Board, and look forward to introducing you to our newest members—former Israeli Prime Minister Ehud Barak, former Eton Park Vice Chairman Alan Batkin, former head of MI6 Sir Richard Dearlove, Monitor Group founder Mark Fuller, and Ambassador Frank Wisner—at our Advisory Board Dinner on **Sunday, 22 September 2013, at the Leash Club in New York** (details below).

Ergo is in the midst of an exciting year. Our core intelligence and advisory business has added large and hungry customers while continuing to bring value to our loyal existing clients. We have launched Four Rivers Holdings—a holding company focused on the exciting growth market of Myanmar—and have partnered with a noted EM investor, Ryan Dodd, to create Ergo Investment Partners (EIP). EIP has launched a fund focusing on Iraqi Kurdistan, and is in beta mode for a long-short, market-neutral fund with an EM and geopolitical events bias. We are very excited for this opportunity to build on Ergo's years of EM geopolitical intelligence experience and network of on-the-ground assets.

We look forward to discussing these opportunities, formally introducing all board members (bios attached), and updating you on our current work at our dinner in September.
